## • Profile

As a Junior QA Tester, I am dedicated to ensuring top-notch software quality through manual and automated testing. I've also delved into Front End Development, mastering HTML and CSS. With adaptability and a quick learning style, I bring a commitment to improvement. Excited to contribute to dynamic projects, I offer a blend of QA expertise and emerging Front End skills, making me an asset to any team.

## • Work Experience

Expo Line Ltd | MANUAL TESTING PART TIME JOB  
[September 2023]

- Manual testing of the website and sales software includes evaluating functionality, compatibility and localization.

All other information's about non IT experience are in my portfolio link in contact section
